## Join Leading Golf Courses

Transform your staff management with intelligent scheduling, seamless operations, and improved efficiency.

### Smart Scheduling

AI-powered scheduling that optimizes staff allocation and preferences

### Team Management

Comprehensive staff profiles, roles, and performance tracking

### Time Tracking

Built-in attendance monitoring and payroll integration

### 14-Day Free Trial

No commitment required. Experience the transformation risk-free.

# The Problem: Golf Staffing Is Hard

Course operators face compounding workforce challenges that generic spreadsheets simply cannot solve.

## Seasonal Peaks & Weather

Unpredictable weather and seasonal surges (like winter snowbirds) disrupt labor plans instantly.

## Labor Exceeds 70% of Budget

Maintenance and operations budgets are increasingly consumed by labor costs, demanding strict efficiency.

## Manual Scheduling Errors

Manual spreadsheet planning leads to invisible coverage gaps, unnecessary overtime, and communication breakdowns.

## High Turnover & Rapid Onboarding

High seasonal turnover requires constant recruiting, making rapid, organized onboarding essential to maintain service quality.

## Multi-Club Visibility Gaps

Ownership groups managing multiple properties lack unified visibility, consistent permissions, and cross-club analytics.

## The Operational Impact

Without specialized tools, these compounding issues lead directly to degraded player experiences and eroded profit margins.

# Our Solution: One Platform for Modern Golf Operations

A comprehensive, purpose-built ecosystem to streamline labor, empower staff, and optimize costs.

## Multi-Tenant Architecture

Isolated portals for each club under one company umbrella, ensuring secure data separation and unified owner visibility.

## Role-Based Access

Custom tenant-aware permissions for Owners, Managers, and Staff to guarantee operational security and focused experiences.

## AI-Powered Scheduling

Smart recommendations based on availability, demand, and roles to reduce scheduling time by 20-30% with optimal fairness.

## Swaps & Time-Off

Collaborative tools empowering staff to propose shift trades and request leave with seamless manager approval workflows.

## Coverage Checklists

Dynamic indicators instantly flag understaffed and overstaffed positions, completely eliminating invisible coverage gaps.

## Flexible Exports

Generate schedules in Image, PDF, or Excel formats for distribution, backed by real-time labor utilization reporting.

# Multi-Tenant & Personas

Unified oversight via **strict isolation by club** and comprehensive tenant-aware RBAC.

## Company Owner

Cross-club visibility, top-level governance, reporting, and standardized permissions scaling.

## Club Manager

Day-to-day schedule creation, coverage tracking, shift approvals, and local event oversight.

## Staff Member

Mobile portal to view personal shifts, propose swaps, request time-off, and set availability.

The screenshot shows a web application interface for managing golf clubs. At the top, the header includes the logo 'Golf Clubs' with the subtext 'Alcaraz Co.', the user email 'josh@yopmail.com', the role 'Admin', and a 'Sign Out' button. Below the header, the main section is titled 'Select a Club' with the instruction 'Choose a golf club to manage or create a new one'. On the right side of this section, there are four action buttons: 'Select All', 'Edit', 'Delete', and 'New Club'. The main content area displays two club cards. The first card is for 'Alcaraz Co.' and shows '1 Staff' and '0 Shifts Today'. The second card is for 'Sunrise Valley Co' (located in New Jersey) and shows '2 Staff' and '0 Shifts Today'. Each card has a right-pointing arrow.

# Scheduling UX: Fast, Visual, Reliable

Build and manage weekly staff schedules with an intuitive interface designed for speed and accuracy.

## Color-Coded Positions

Instantly identify operational roles at a glance.

## Drag-and-Drop

Easily build and adjust shift assignments.

## Instant Conflict Checks

Automatically prevent double-booking errors.

## Coverage Indicators

Track actual vs. required staffing in real-time.

# AI Suggestions: Optimize Coverage & Costs

Generate smart, manager-controlled scheduling recommendations based on availability, roles, events, and historical demand.

-  Balances fairness & employee preferences
-  Respects strict labor cost constraints
-  Manager retains final review & approval

## 20-30%

Scheduler productivity improvement, saving hours of manual planning per week.

## 75%

Reduction in schedule disruptions, unexpected break-ins, and emergency reworks.

# Collaboration: Shift Swaps & Time-Off

Empower staff to self-manage schedules while managers maintain complete operational control.

## Shift Swaps & Trades

Staff can propose and review shift swaps directly from their portal, complete with manager approvals and a clear audit trail.

## Time-Off Requests

Submit leave requests, proactively manage scheduling conflicts, and execute streamlined approve or deny workflows.

# Operations Controls: Real-Time Coverage

Maintain perfect staffing levels, streamline approvals, and enforce strict operational governance.

### 👤 Position Coverage Checklist

Coverage status for each position during Mar 9 - Mar 15, 2026

Daily Coverage Legend:

- Fully staffed
- Understaffed
- Missing shift
- Not covered
- Overstaffed / Unexpected day
- Not active

Position	Scheduled Shifts	Active Days	Coverage Status	Staffing Details
Bag Room	7 shifts	7 active days	Good	100% staff coverage
Bag Room Closer	8 shifts	7 active days	Overstaffed	13% coverage (13% overstaffed), 1 overstaffed shift, +1 extra staff
Bag Runner	5 shifts	7 active days	Critical	71% staff coverage, 2 missing shifts
Cart Cleaning	0 shifts	3 active days	Critical	0% staff coverage, 3 missing shifts
Director Of Golf	6 shifts	6 active days	Good	100% staff coverage

## Real-Time Coverage Indicators

Instantly identify staffing gaps or surpluses with dynamic, color-coded status badges directly on the schedule.

Understaffed

Fully Staffed

Overstaffed

## Approval Flows

Streamline shift swaps and time-off requests with structured, manager-controlled approval routing.

## Role-Scoped Permissions

Ensure data security by restricting visibility and actions based on specific user roles and club assignments.

## Auditability Across Clubs

Track every schedule change, manager approval, and override with a comprehensive activity log.

# Outputs & Insights

Export schedules effortlessly and analyze performance with powerful labor dashboards.

## Flexible Schedule Exports

Export and distribute your finalized schedules in multiple formats to ensure every team member stays informed.

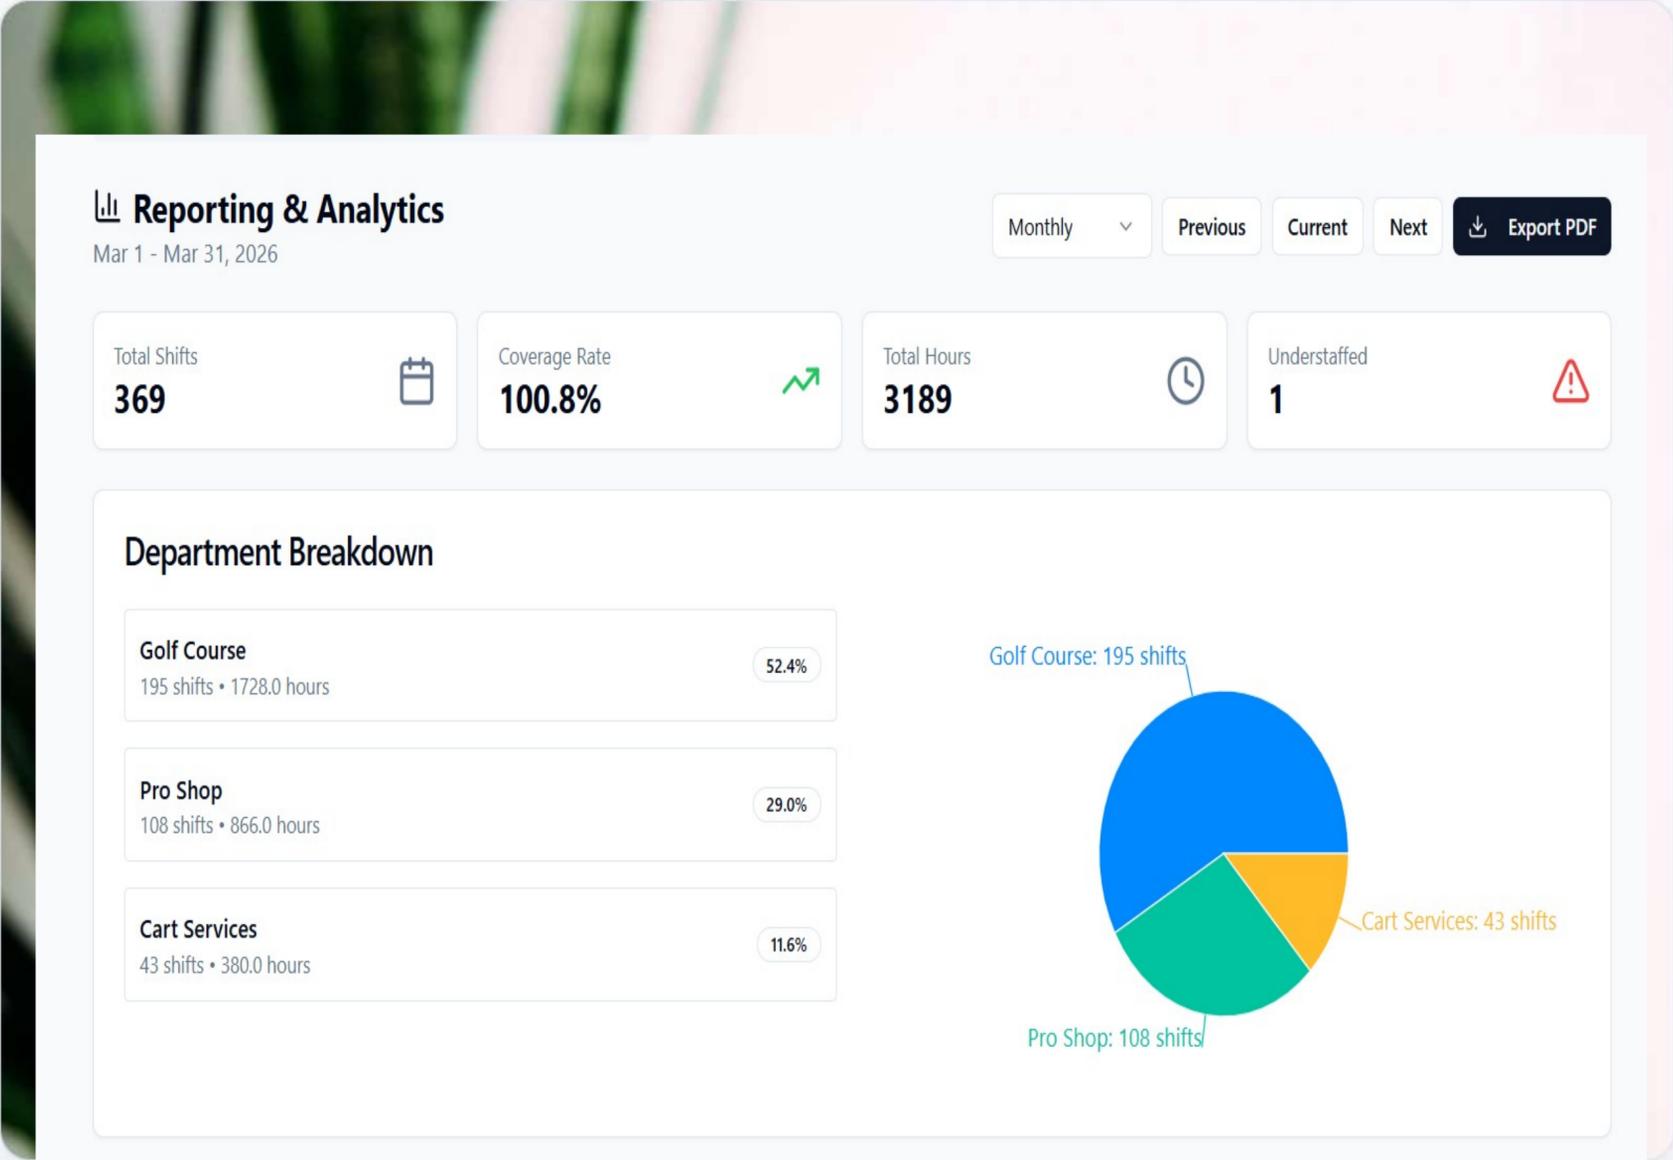

- PDF
- Excel
- Image

## Reporting & Dashboards

Gain actionable visibility into operational performance through real-time tracking of critical metrics.

- Utilization
- Coverage
- Labor KPIs

# Success Metrics & Next Steps

**20-30%**

**Productivity Boost**

Manager time saved per week via AI-driven scheduling automation.

**75%**

**Fewer Disruptions**

Reduction in emergency reworks, schedule break-ins, and coverage gaps.

**Zero**

**Cross-Tenant Leakage**

Complete data isolation per club ensuring enterprise-grade RBAC security.

**Recommended Rollout Plan**

- 1 Pilot:** Implement at 1-2 flagship clubs
- 2 Train:** Onboard general and club managers
- 3 Expand:** Rollout fleet-wide to all locations
